

**The first-ever
financial products
marketplace
powered by AI**

FINQ is changing the way people experience finance

A marketplace that connects the user with a wide range of financial products:

FINQ's unique value proposition for the users

The platform is completely digital, without any human interaction.

Digital

Each user receives a personalized portfolio based on his unique characteristics.

Personalized

FINQ shifts the power to the user, making all his choices and alternatives transparent.

Transparent

FINQ has no products of its own and no biased intermediaries

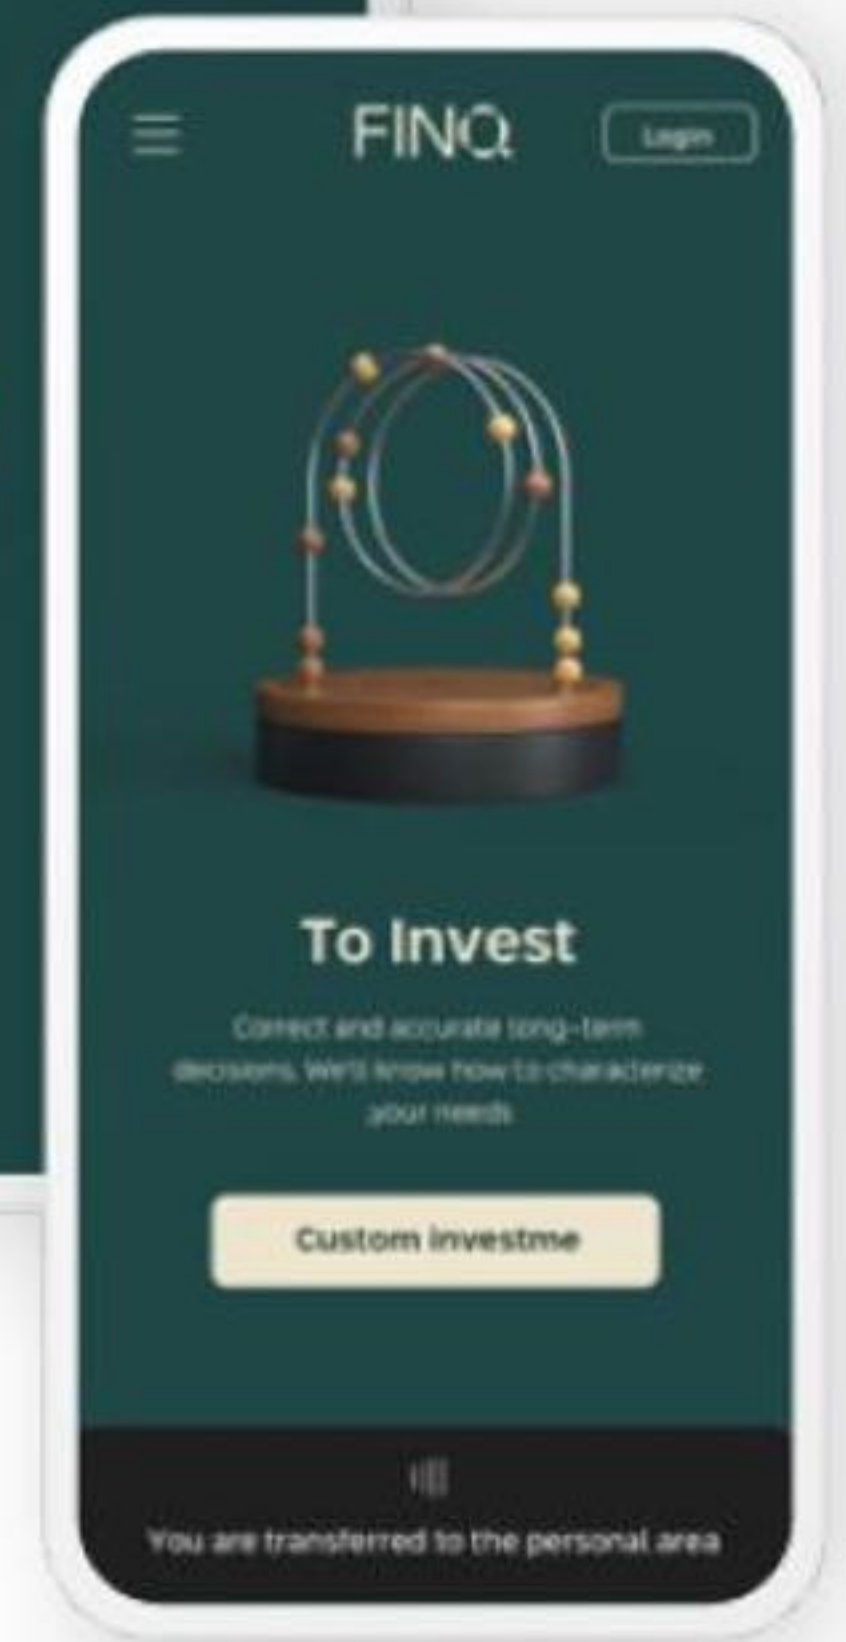

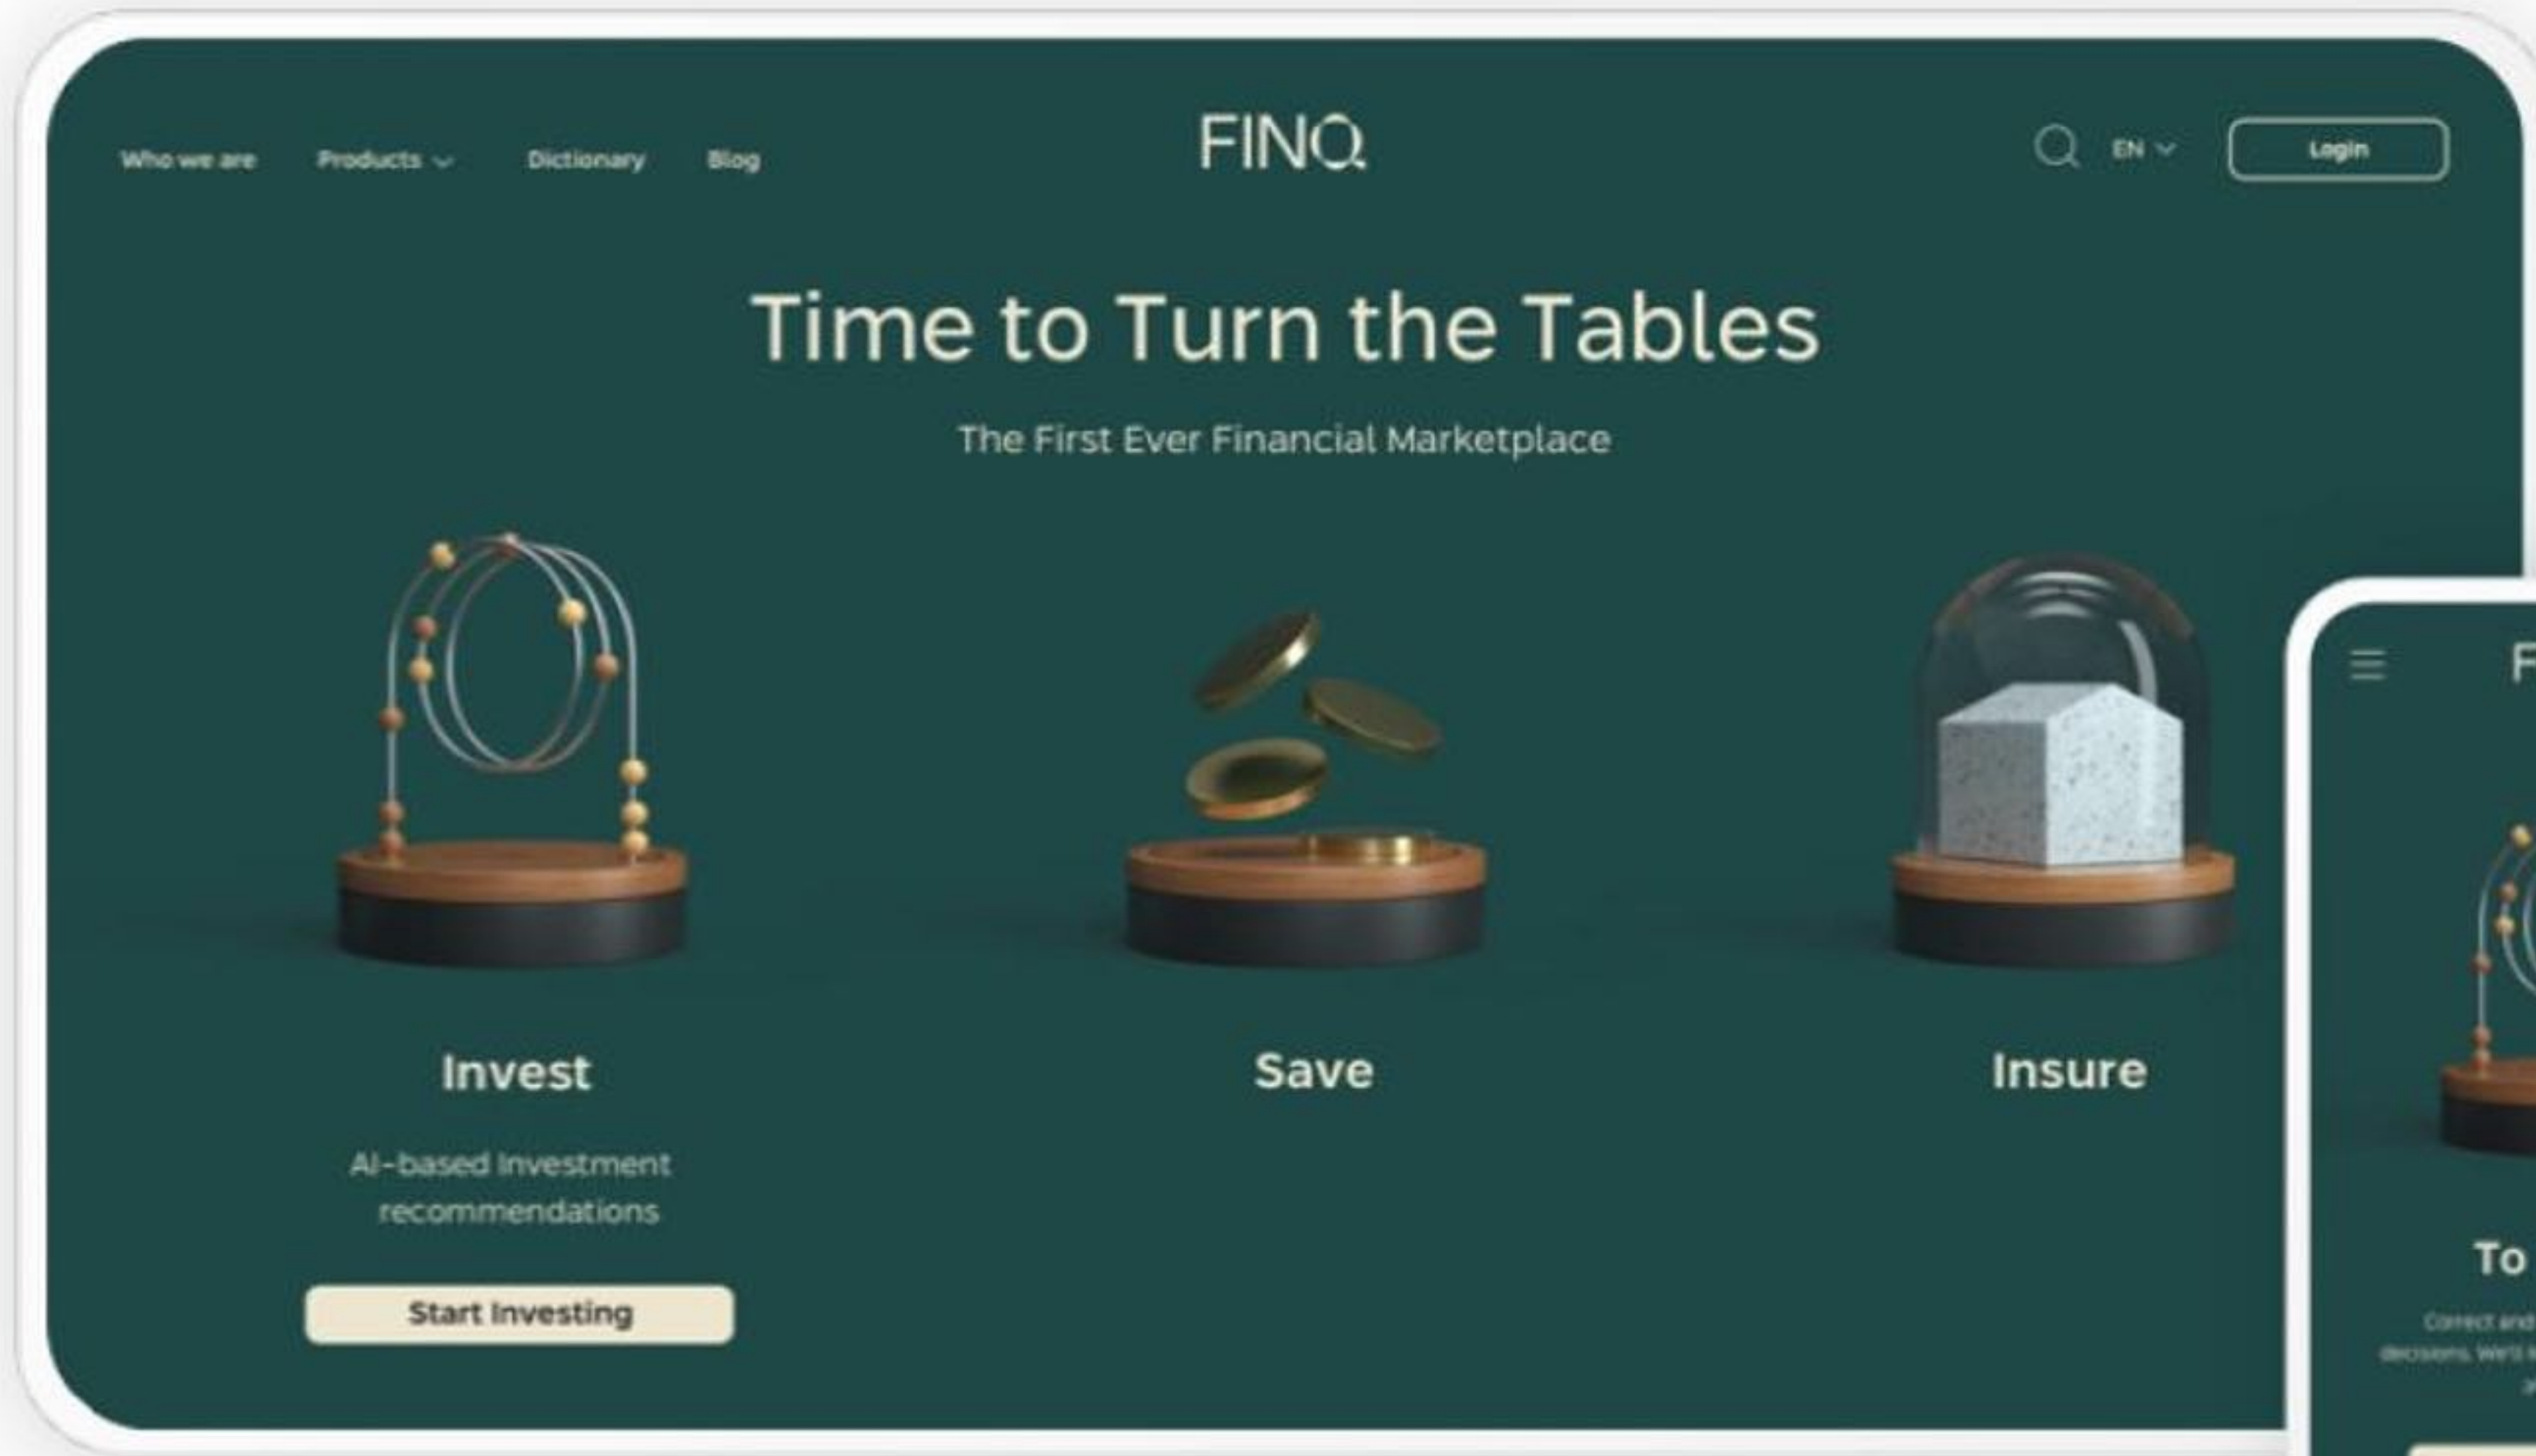

Objective

Free of charge. No minimum amount required.

Accessible

The platform rests on three AI-based algorithms, making it the smartest marketplace in the world.

Smart
